DIRECTORS' REPORT

The Directors present their report on Queste Communications Ltd ("**Company**" or "**Queste**") and its controlled entities (the "**Consolidated Entity**") for the financial year ended 30 June 2006 ("**Balance Date**").

Queste is a company limited by shares that is incorporated and domiciled in Western Australia and has been listed on the Australian Stock Exchange ("**ASX**") since November 1998.

Queste has prepared a consolidated financial report incorporating the entities that it controlled during the financial year. Controlled entities are ASX listed investment company, Orion Equities Limited ABN 77 000 742 843 ("**Orion Equities**" or "**OEQ**") (controlled throughout the financial year) and controlled entities of Orion Equities - Silver Sands Developments Pty Ltd ABN 16 094 097 122 (controlled by OEQ throughout the financial year) and Hume Mining NL ABN 52 063 994 945 (controlled by OEQ throughout the financial year).

Orion Equities has been treated as a controlled entity by virtue of the Company being a 48.04% substantial shareholder of Orion Equities as at Balance Date (30 June 2005: 49.34%).

PRINCIPAL ACTIVITIES

The principal activities of the Company during the financial year were the pursuit of opportunities to commercially exploit the Company's VoiceNet System Voice-over-Internet Protocol ("**VoIP**") technology and the management of its net assets/investments.

The principal activities of Orion Equities during the financial year were the management of its net assets/investments, including investments in listed securities, real estate and resource projects.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There were no significant changes in the state of affairs of the Consolidated Entity or the Company that occurred during the financial year not otherwise disclosed in this Directors' Report or the financial statements.

ADOPTION OF AUSTRALIAN EQUIVALENTS TO INTERNATIONAL FINANCIAL REPORT STANDARDS (AIFRS)

The Consolidated Entity's financial statements have been prepared in accordance with AIFRS. Where necessary, comparative information (i.e. in relation to the previous financial year ended and previous balance date as at 30 June 2005) has been adjusted for reporting under the applicable AIFRS. A reconciliation of adjustments arising on the transition to AIFRS is included in note 2 to the financial statements.

FUTURE DEVELOPMENTS

In the opinion of the Directors, it may prejudice the interests of the Consolidated Entity to provide additional information (beyond that reported in this Directors' Report) in relation to future developments and the business strategies and operations of the Consolidated Entity and the expected results of those operations in subsequent financial years.

NET TANGIBLE ASSET BACKING

The effects of the Company's 20,000,000 partly paid ordinary shares (which were issued at a price of 20 cents each and have been partly paid to one cent each and have an outstanding amount payable of 19 cents per partly paid share) on the net tangible asset (“NTA”) backing of the Company and Consolidated Entity have been considered below.

The Directors also note that:

- The Company's NTA at Balance Date includes a valuation of the Company's 8,558,127 shares in Orion Equities (representing a 48.04% interest) at Orion Equities' last bid price on ASX at Balance Date of \$0.735 per share. This compares with OEQ's post tax NTA backing of \$1.426 per share at Balance Date.
- The Consolidated Entity's NTA at Balance Date includes the effects of the NTA position of Orion Equities as a controlled entity rather than OEQ's market price on ASX.
- NTA backings at the Consolidated Entity level are reported net of minority interests.

DIRECTORS' REPORT

2.5. Orion Equities' Investment Objectives

The investment objectives of Orion Equities are to:

- Achieve a consistent high real rate of return, comprising both income and capital growth, whilst operating within acceptable risk parameters set by the Board of Orion Equities;
- Deliver a regular income stream for Orion Equities shareholders in the form of franked dividends;
- Preserve and protect the capital of Orion Equities.

2.6. Investment Strategy

Orion Equities will seek to implement an actively managed investment strategy undertaking investments typically into one of two broad investment categories:

- Strategic Investments; and
- Non-strategic Investments.

Orion Equities does not seek to allocate a fixed proportion of funds into each or any of the above investment categories, since it believes that complete flexibility to invest across these categories is key to maximising long-term value growth for its shareholders.

(a) Strategic Investments

Orion Equities will seek to undertake investments in which it can reasonably expect to exert a degree of influence, including board representation or through playing an active role alongside management in order to enhance or realise shareholder value.

Investments will include those that have the potential for turnaround in profitability or capital appreciation through the introduction of new management, capital, improved business practices, industry rationalisation, and/or improved investor relations.

Strategic investments by their nature will rely heavily on Orion Equities' ability to identify, attract and exploit unique opportunities.

(b) Non-Strategic Investments

Orion Equities will seek to make non-strategic investments in entities where attractive investment opportunities develop due to market sentiment or mispricing or where Orion Equities sees other potential for generating positive returns. In contrast to strategic investments, with non-strategic investments Orion Equities does not envisage that it will take an active role in the management of the investment.

For each strategic and non-strategic investment, Orion Equities will expect to receive a level of return that is commensurate with the level of risk associated with such investment. In each investment and for its investment portfolio in aggregate, Orion Equities will at least aim to achieve a return that is consistently in excess of an appropriate benchmark share index and or a return which could be earned from investments in cash, bills of exchange or negotiable instruments drawn or endorsed by a bank, non-bank financial institution or a government.

DIRECTORS' REPORT

2.7. Portfolio Allocation

In executing its investment strategy, Orion Equities may, from time to time, hold a high proportion of net assets in cash, preferring to be patient and selective rather than filling its investment portfolio with mediocre or underperforming investments for the sake of becoming "fully-invested".

Orion Equities will not be limited to the principles of broad diversification; in other words, the company may invest a significant proportion of funds in any single investment that represents an exceptional opportunity.

Every investment made by Orion Equities will be continuously monitored and formally reviewed on a periodic basis. Orion Equities will be willing to move quickly to realise investments when a view is formed that an investment is overvalued or there has been a material adverse change in an investment's circumstances or prospects – Orion Equities recognises the importance of being nimble and responsive to material changes affecting its investments.

Orion Equities recognises that in some cases, investments take significant periods of time to provide acceptable returns. As such investments may be relatively illiquid, Orion Equities will seek to minimise potential loss in the investment's value where a rapid or unplanned exit from that investment is sought.

Orion Equities may also decide to dispose of shares in an entity if in Orion Equities' view, maintaining the investment is not in the best long-term interests of Orion Equities or an alternative, superior investment opportunity arises.

2.8. Investment Sectors

Investments may be made by Orion Equities in Australia or an overseas market and into any underlying industry, business or sector, in accordance with Orion Equities' stated investment objectives and strategies.

In this regard, Orion Equities has a history of activity in the resource sector. Investments undertaken in this sector will continue to provide Orion Equities with a window into the highly prospective resources sector domestically and globally. Such opportunities can provide the possibility for exceptional growth and returns for relatively small levels of investment.

Resource investments may span large mining companies that produce base metals and precious metals, industrial minerals and bulk commodities to junior explorers with exposure to highly prospective projects or tenements. From time to time the Portfolio may have exposure to oil and gas opportunities.

Investments in the resources sector component of the portfolio may be undertaken:

- Directly – through pegging of tenements, entering into joint ventures, taking options over and acquiring tenements, projects and joint venture interests;
- Indirectly – through placements and initial public offerings in existing companies (private, listed, or those seeking admission to ASX); or
- Actively – Orion Equities recognises funding of exploration and resources development can be a problem for small and medium-sized resource companies (in Australia and overseas) and will seek to assist carefully selected companies in this sector to optimise their opportunities through the provision of funds and a range of financial and management expertise or services as required.

DIRECTORS' REPORT

Orion Equities will also seek to engage geological consultants and other relevant advisers from time to time to assist in the assessment of investment opportunities in this sector.

2.9. Investment Classes

In pursuit of the investment objectives and strategies outlined above, Orion Equities will have absolute discretion in applying its equity and any debt funds to a universe or range of potential investments in assets, businesses, securities, hybrid securities, cash, bills of exchange, other negotiable investments, debentures and other investments and structures.

2.10. Management of Investments

Orion Equities' implementation of its investment strategies in accordance with its investment objectives and investment decisions in this regard will be carried out by its Board of Directors and its Investment Committee (in conjunction with external consultants and advisers where appropriate) and not an external investment manager.

The Chairman and Managing Director of Queste, Mr Farooq Khan, has been a member of the OEQ Investment committee since 8 July 2004.

Where necessary, Orion Equities' Investment Committee will engage additional specialist resource(s) to assist with the identification, evaluation and management of particular investment opportunities. This includes specialist consultants and advisers, analysts and brokers.

3. CORPORATE

3.1. Altera Capital Limited (AEA)

On 25 May 2006, the Company entered into a share sale agreement with a syndicate of investors to dispose of 10,699,428 (17.25%) in AEA in consideration for \$34,849 cash. On 3 August 2006, AEA shareholders approved the sale and on 8 August 2006, the sale was completed with the Company also receiving \$ 17,782 from AEA being the full repayment of a loan advanced to AEA during the financial year. AEA also terminated an irrevocable unsecured letter of credit of \$17,000 provided by the Company to AEA on 12 June 2006.

3.2. Sofcom Limited (SOF)

The Company is currently the second largest shareholder in ASX listed **SOF** with a holding of 6,255,349 shares (14.01%).

SOF currently has minimal net assets and has been suspended from the ASX since 29 June 2005 and has advised that its suspension will continue until the company is recapitalised and re-complies with admission requirements under the ASX Listing Rules.

The Company is seeking to sell a whole or part of its shareholding in SOF.

DIRECTORS' REPORT

3.3. Partly Paid Shares

The Company currently has 20,000,000 partly paid shares on issue which are paid up to 1 cent, with 19 cents still payable (20 cents in total) (the **"Partly Paid"** shares). The Company's undiluted Net Tangible Assets per share (**"NTA"**) is approximately 29 cents per share and its fully diluted NTA per share (taking into account the effect of the immediate conversion of the Partly Paid shares) is approximately 25.5 cents per share, as at 30 June 2006. These NTA backings (at the Company level) are based on valuing the Company's 48% interest in Orion Equities at OEQ's last bid price on ASX at Balance Date of \$0.735 per share. This compares with OEQ's pre-tax NTA backing at Balance Date of \$1.426 per share. This also compares with the Consolidated Entity's undiluted and diluted NTA backing of 41 and 40 cents per share respectively – which includes the effects of the NTA position of Orion Equities as a controlled entity rather than OEQ's market price on ASX.

The Directors believe that the existence of such a large number of outstanding Partly Paid shares relative to the Company's total issued capital may create a negative sentiment amongst shareholders and investors towards the Company's stock.

In particular, the effect of conversion of such Partly Paid shares dilutes the NTA per fully paid share of the Company and given the significant number of such Partly Paid shares on issue, any future increase in the NTA backing of the Company creates the opportunity for a value shift from the holders of fully paid shares to the holder of the Partly Paid shares.

Whilst the Company is able to progressively make calls for the payment of the unpaid portion of the Partly Paid shares, the terms of their issue are such that it could, theoretically, take over 30 years for the Partly Paid shares to become fully paid.

The Directors have therefore, as a capital management exercise, entered into discussions with the holder of the Partly Paid shares (which is an entity associated with Mr Azhar Chaudhri, a director of the Company) (the **"Holder"**) with a view to reach a settlement whereby, in exchange for cash and/or ordinary fully paid shares in the Company, the Partly Paid shares are wholly or partially cancelled.

If agreement between the Company and the Holder is reached, then a settlement proposal (the **"Settlement Proposal"**) will be put to shareholders for approval at a general meeting. An Independent Expert Report (**"IER"**) will be commissioned by the independent Directors to consider the terms of the Settlement Proposal. The IER will be given to shareholders as part of the general meeting documentation.

At the date of this Directors' Report, the Company and the Holder have not been able to reach an agreement in relation to this matter. The Company will advise the market and shareholders if and when a Settlement Proposal has been reached between the Holder and the independent Directors of the Company.

DIRECTORS' REPORT

Board Committees

During the financial year and as at the date of this Directors' Report, the Company did not have separate designated Audit or Remuneration Committees. In the opinion of the Directors, in view of the size of the Board and nature and scale of the Consolidated Entity's activities, matters typically dealt with by an Audit or Remuneration Committee are dealt with by the full Board.

REMUNERATION REPORT

This report details the nature and amount of remuneration for each Director of the Company and Executive Officer of the Consolidated Entity.

(1) Remuneration Policy

The Board determines the remuneration structure of all Directors and Executive Officers having regard to the Consolidated Entity's nature, scale and scope of operations and other relevant factors, including the frequency of Board meetings, length of service, particular experience and qualifications.

The Executive and Non-Executive Directors of the Company are paid a fixed amount per annum plus employer superannuation contributions.

Pursuant to the Company's Constitution, each Director is also entitled to receive:

- (1) Payment for the performance of extra services or the undertaking of any executive or other work for the Company beyond his or her general duties.
- (2) Payment for travelling and other expenses properly incurred by a Director in attending meetings of the Company or the Board or in connection with the Company's business.

The Company does not presently have any equity (shares or options) based remuneration arrangements pursuant to any executive or employee share or option plan or otherwise.

The Company does not presently provide retirement benefits or incentive/performance based benefits to Directors or the sole Executive Officer.

The Company does not presently have formal service agreements or employment contracts with the Directors or the current sole Executive Officer.

The Company has not had during the financial year and does not currently have a directors' and officers' liability insurance policy which covers all Directors and officers of the Company and its wholly-owned subsidiaries.

There is no link between the remuneration of the directors and Company earnings and shareholder wealth.

DIRECTORS' REPORT

(2) Details of Remuneration of Directors

Details of the nature and amount of each element of remuneration of each Director of the Company paid or payable by the Consolidated Entity during the financial year are as follows:

DIRECTORS' REPORT

(4) Directors' Deeds

In addition to the rights of indemnity provided under the Company's Constitution (to the extent permitted by the Corporations Act), the Company has also entered into a deed with each of the Directors to regulate certain matters between the Company and each Director, both during the time the Director holds office and after the Director ceases to be an officer of the Company, including the following matters:

- (i) The Company's obligation to indemnify a Director for liabilities or legal costs incurred as an officer of the Company (to the extent permitted by the Corporations Act);
- (ii) Subject to the terms of the deed and the Corporations Act, the Company may advance monies to the Director to meet any costs or expenses of the Director incurred in circumstances relating to the indemnities provided under the deed and prior to the outcome of any legal proceedings brought against the Director; and

Such deeds (in respect of all current directors) were approved by shareholders at the 2005 AGM.

(5) Other Directors' Benefits

No Director of the Company has, since the end of the previous financial year, received or become entitled to receive a benefit, other than a remuneration benefit as disclosed above, by reason of a contract made by the Company or a related entity with the Director or with a firm of which he is a member, or with a Company in which he has a substantial interest.

AUDITOR

Details of the amounts paid or payable to the auditor for audit and non-audit services provided during the financial year are set out below:

Audit & Review Fees	Consolidated Entity Fees for Other Services	Total	Audit & Review Fees	Company Fees for Other Services	Total
\$	\$	\$	\$	\$	\$
35,581	165	35,746	17,840	-	17,840

There has been no provision of non-audit services to the Company by the auditor during the year.

The board of Orion Equities have advised that they are satisfied that the provision of non audit services by the auditor to Orion Equities during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Board of Orion Equities has advised that it was satisfied that the nature of the non-audit services disclosed above did not compromise the general principles relating to auditor independence as set out in the Institute of Chartered Accountants in Australia and CPA Australia's Professional Statement F1: Professional Independence, including reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the company, acting as advocate for the company or jointly sharing economic risk and rewards.

DIRECTORS' REPORT

AUDITORS' INDEPENDENCE DECLARATION

A copy of the Auditor's Independence Declaration as required under section 307C of the Corporations Act 2001 forms part of this Directors Report and is set out on page 22. This relates to the Audit Report, where the Auditors state that they have issued an independence declaration.

EVENTS SUBSEQUENT TO BALANCE DATE

The Directors are not aware of any matters or circumstances at the date of this Directors' Report, other than those referred to in this Directors' Report (in particular, in Review of Operations) or the financial statements or notes thereto (in particular Subsequent Events Note 26), that have significantly affected or may significantly affect the operations, the results of operations or the state of affairs of the Company in subsequent financial years.

Signed for and on behalf of the Directors in accordance with a resolution of the Board.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2006

1. SUMMARY OF ACCOUNTING POLICIES

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial report (comprising the financial statements and notes thereto) is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, Urgent Issues Group Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

The financial report includes separate financial statements for Queste Communications Ltd as an individual parent entity (the “**Company**”) and the consolidated entity consisting of Queste Communications and its subsidiaries. Queste Communications Ltd is a company limited by shares, incorporated in Western Australia, Australia.

Compliance with IFRS

The financial report complies with all Australian equivalents to International Financial Reporting Standards (**AIFRS**) in their entirety. Compliance with AIFRS ensures that the consolidated financial statements of Queste Communications Ltd comply with International Financial Reporting Standards (**IFRS**) save that the parent and consolidated entities have elected to apply the relief provided in respect of certain disclosure requirements pursuant to *AASB 132 Financial Instruments: Disclosure and Presentation* and *AASB 139: Financial Instruments: Recognition and Measurement*.

The following is a summary of the material accounting policies adopted by the consolidated entity in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

Basis of Preparation

First-time Adoption of Australian Equivalents to International Financial Reporting Standards (AIFRS)

The consolidated entity and the Company have prepared financial statement in accordance with AIFRS from 1 July 2005. In accordance with the requirements of AASB 1: First-time Adoption of Australian Equivalents to International Financial Reporting Standards, adjustments to the Company and the consolidated entity's accounts resulting from the introduction of AIFRS have been applied retrospectively to 2005 comparative figures excluding cases where optional exemptions available under AASB 1 have been applied.

The accounting policies set out below have been consistently applied to all years presented. The parent and consolidated entities have however elected to adopt the exemptions available under AASB 1 relating to *AASB 132: Financial Instruments: Disclosure and Presentation*, and *AASB 139: Financial Instruments: Recognition and Measurement*.

Reconciliations of the transition from previous Australian GAAP to IFRS have been included in Note 2 to this report.

Reporting Basis and Conventions

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, and financial assets and financial liabilities for which the fair value basis of accounting has been applied.

1.1. Principles of Consolidation

A controlled entity is any entity the Company has the power to control the financial and operating policies of so as to obtain benefits from its activities. A list of controlled entities is contained in note 13 to the financial statements. All controlled entities have a June financial year-end. All inter-company balances and transactions between entities in the consolidated entity, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the Company.

1.2. Investments in Associates

Investments in associates are accounted for in the consolidated financial statements using the equity method. Under this method, the consolidated entity's share of the post-acquisition profits or losses of associates is recognised in the consolidated income statement, and its share of post-acquisition movements in reserves is recognised in consolidated reserves. The cumulative post-acquisition movements are adjusted against the cost of the investment. Associates are those entities over which the consolidated entity exercises significant influence, but not control. A list of associates is contained in note 14 to the financial statements. All associate entities have a June financial year-end.

1.3. Mineral Exploration and Evaluation Expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence or otherwise of economically recoverable reserves. Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made. Under AASB 6 “Exploration for and Evaluation of Mineral Resources”, if facts and circumstances suggest that the carrying amount of any recognised exploration and evaluation assets may be impaired, the Company must perform impairment tests on those assets and measure any impairment in accordance with AASB 136 “Impairment of Assets”. Any impairment loss is to be recognised as an expense. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest. The directors have expensed all exploration, evaluation and development expenditure incurred during the financial year.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2006

1.4. Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different to those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment and is subject to risks and returns that are different from those of segments operating in other economic environments. The consolidated entity's segment reporting is contained in note 24 of the notes to the financial statements.

1.5. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the consolidated entity and the revenue can be reliably measured. All revenue is stated net of the amount of goods and services tax ("GST"). The following specific recognition criteria must also be met before revenue is recognised:

Sale of Goods and Disposal of Assets - Revenue from the sale of goods and disposal of other assets is recognised when the consolidated entity has passed control of the goods or other assets to the buyer.

Contributions of Assets - Revenue arising from the contribution of assets is recognised when the consolidated entity gains control of the asset or the right to receive the contribution.

Interest Revenue - Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Dividend Revenue - Dividend revenue is recognised when the right to receive a dividend has been established. The consolidated entity brings dividend revenue to account on the applicable ex-dividend entitlement date.

Other Revenues - Other revenues are recognised on a receipts basis.

1.6. Income Tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the notional income tax rate for each taxing jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses (if applicable).

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each taxing jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. The amount of deferred tax assets benefits brought to account or which may be realised in the future, is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the consolidated entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

1.7. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST. Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

1.8. Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. Employer superannuation contributions are made by the consolidated entity in accordance with statutory obligations and are charged as an expense when incurred.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2006

1.9. Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts (if any) are shown within short-term borrowings in current liabilities on the balance sheet.

1.10. Receivables

Trade and other receivables are recorded at amounts due less any provision for doubtful debts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off when considered non-recoverable.

1.11. Investments and Other Financial Assets

From 1 July 2005 to 30 June 2006

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below.

Financial assets at fair value through profit and loss - A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management and within the requirements of AASB 139: *Recognition and Measurement of Financial Instruments*. Realised and unrealised gains and losses arising from changes in the fair value of these assets are included in the income statement in the period in which they arise.

Loans and receivables - Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

Held-to-maturity investments - These investments have fixed maturities, and it is the consolidated entity's intention to hold these investments to maturity. Any held-to-maturity investments held by the consolidated entity are stated at amortised cost using the effective interest rate method.

Available-for-sale financial assets - Available-for-sale financial assets include any financial assets not included in the above categories. Available-for-sale financial assets are reflected at fair value. Unrealised gains and losses arising from changes in fair value are taken directly to equity.

Financial liabilities - Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

At each reporting date, the consolidated entity assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the income statement.

From 1 July 2004 to 30 June 2005

The consolidated entity has taken the exemption available under AASB 1 to apply AASB 132 and AASB 139 only from 1 July 2005. The consolidated entity has applied previous AGAAP to the comparative information on financial instruments within the scope of AASB 132 and AASB 139. The accounting policy applying to such 2005 comparatives are:

Orion Equities Limited (part of Queste Communications Ltd's consolidated entity) has three portfolios of investments in securities, the investments portfolio, the options portfolio and the trading portfolio. The investment portfolio relates to holdings of securities which the Orion Equities Directors intend to retain on a long-term basis, which is classified as a "non-current asset". The options portfolio contains exchange traded options contracts that are entered into in relation to underlying listed securities. The trading portfolio comprises securities held for trading purposes, which is classified as a "current asset".

Valuation of Options Portfolio - Options written against underlying listed securities are initially brought to account at the amount received upfront for entering into the options contract (the option premium), which are included in Net Profit.

Valuation of Trading Portfolio - Securities, including listed and unlisted shares, units and notes, are initially brought to account at cost and are revalued to market values at each balance date. Any unrealised gains or losses at balance date are included in the Net Profit. Where disposals are made from the trading portfolio the gain or loss arising from the difference between the proceeds and the carrying value is included in the Net Profit.

Determination of Market Value - Market value for the purpose of valuing securities is determined by reference to market prices prevailing at balance date, where the securities are traded on an organised market. Where a security is unlisted or suspended, its fair value is determined by its net tangible asset value.

Investments in Listed Controlled Entities - Investments in listed controlled entities are recorded at their net tangible asset (NTA) backing post tax.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2006

Income from Holdings of Securities - Distributions relating to listed securities are recognised as income when those securities are quoted in the market on an ex-distribution basis. Distributions relating to unlisted securities are recognised as income when received. The premium received on options written against underlying listed securities (the options portfolio) is offset against these underlying listed securities until the option expires, is exercised or is repurchased from the holder. When one of these events occurs, the net gain or loss arising on the option contract is included in Net Profit.

1.12. Fair value Estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the consolidated entity is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price.

The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques. The consolidated entity may use a variety of methods and makes assumptions that are based on market conditions existing at each balance date. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the consolidated entity for similar financial instruments.

1.13. Property held for Resale

Property held for development and sale is valued at lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development are expensed. Profits are brought to account on the signing of an unconditional contract of sale.

1.14. Property, Plant and Equipment

All property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present value in determining recoverable amount.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the consolidated entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate	Depreciation Method
Plant and Equipment	15-33.3%	Diminishing Value
Furniture and Equipment	15-20%	Diminishing Value
Leasehold Improvements	15%	Diminishing Value

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

1.15. Impairment of Assets

At each reporting date, the consolidated entity reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement. Impairment testing is performed annually for goodwill and intangible assets with indefinite lives. Where it is not possible to estimate the recoverable amount of an individual asset, the consolidated entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

1.16. Payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 30 June 2006

1.17. Issued Equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are included in the cost of the acquisition as part of the purchase consideration.

1.18. Earnings Per Share

Basic Earnings per share is determined by dividing the operating result after income tax by the weighted average number of ordinary shares on issue during the financial period.

Diluted Earnings per share adjusts the figures used in the determination of basic earnings per share by taking into account amounts unpaid on ordinary shares and any reduction in earnings per share that will probably arise from the exercise of options outstanding during the financial period.

1.19. Research and Development Costs

Expenditure during the research phase of a project is recognised as an expense when incurred. Development costs are capitalised only when technically feasibility studies identify that the project will deliver future economic benefits and these benefits can be measured reliably. Development costs have a finite life and are amortised on a systematic basis matched to the future economic benefits over the useful life of the project.

1.20. Changes in Accounting Policy

The consolidated entity has adopted the following accounting standards for application on or after 1 January 2005:

- (i) AASB 132: Financial Instruments: Disclosure and Presentation; and
- (ii) AASB 139: Financial Instruments: Recognition and Measurement.

The changes resulting from the adoption of AASB 132 relate primarily to increased disclosures required under the standard and do not affect the value of amounts reported in the financial statements.

The adoption of AASB 139 has resulted in material differences in the recognition and measurement of the consolidated entity's financial instruments. A summary of the main adjustments and explanations are included in Note 2 and in the Statement of Changes in Equity.

The following Australian Accounting Standards have been issued or amended and are applicable to the Company and Consolidated Entity but are not yet effective. They have not been adopted in preparation of the preparation of the financial statements at reporting date.

The Deferred Tax Asset not brought to account for the 2006 year will only be obtained if:

- the Company derives future assessable income of a nature and of an amount sufficient to enable the benefit to be realised;
- the Company continues to comply with the conditions for deductibility imposed by tax legislation; and
- the Company is able to meet the continuity of ownership and/or continuity of business tests.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

(ii) Partly paid ordinary shares

There were no movements during the year for partly paid ordinary shares.

The Company's 20,000,000 unlisted partly paid ordinary shares are each paid to one cent with 19 cents per share outstanding.

At any meeting, each shareholder present in person or by proxy, attorney or representative has one vote for each ordinary fully paid share held either upon a show of hands or by a poll. Holders of partly paid shares have a fraction of a vote for each partly paid share held with the fractional vote of each share being equivalent to the proportion which the amount actually paid (not credited) for that share is of the total amounts paid and payable (excluding amounts credited) for that share. Amounts paid in advance of a call are ignored when calculating proportions. The holder of a partly paid share is not entitled to vote at a meeting in respect of those shares on which calls are outstanding. No voting rights are attached to the Company's options on issue.

The profits of the Company, which the Directors may from time to time determine to distribute to shareholders by way of a dividend, will be divisible amongst the shareholders in proportion to the amounts paid on the shares held by them. An amount paid in advance of a call is not to be included as an amount paid on a share for the purposes of calculating entitlement to dividends for such share.

25. FINANCIAL INSTRUMENTS

The consolidated entity's financial instruments mainly consist of listed and unlisted securities, deposits with banks, accounts receivable and payable and loans to related parties. The consolidated entity's investments are subject to price (which includes interest rate and market risk), credit and liquidity risks.

(a) Interest Rate Risk Exposure

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The consolidated entity's exposure to market risk for changes in interest rates relate primarily to investments held in interest bearing instruments. The consolidated entity has no borrowings.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2006

25. FINANCIAL INSTRUMENTS (continued)

(b) Credit Risk Exposure

Credit risk refers to the risk that a counterparty under a financial instrument will default (in whole or in part) on its contractual obligations resulting in financial loss to the consolidated entity. Concentrations of credit risk are minimised primarily by undertaking appropriate due diligence on potential investments, carrying out all market transactions through approved brokers, settling non-market transactions with the involvement of suitably qualified legal and accounting personnel (both internal and external), and obtaining sufficient collateral or other security (where appropriate) as a means of mitigating the risk of financial loss from defaults.

Market prices of listed financial instruments generally incorporate credit assessments into valuations and risk of loss is implicitly provided or in the carrying value of such assets in the financial statements as they are marked to market at balance date. The consolidated entity measures credit risk on a fair value basis. The carrying amount of financial assets recorded in the financial statements, net of any provision for losses, represents the consolidated entity's maximum exposure to credit risk without taking account of the value of any collateral or other security obtained (if any).

(c) Market Price Risk Exposure

Market price risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments in the market. Market risk is minimised through ensuring that investment activities are undertaken in accordance with Board established mandate limits and investment strategies.

(d) Liquidity Risk Exposure

Liquidity risk is the risk that the consolidated entity will encounter difficulty in meeting obligations associated with financial liabilities. The consolidated entity has no borrowings.

Net Fair Value of Financial Assets and Liabilities

The net fair value of the financial assets and financial liabilities approximates their carrying value except for investments in securities, details of which are set out in Note 11.

26. COMMITMENTS

	Consolidated Entity		Company

	<u>349,440</u>	<u>124,033</u>	<u>174,720</u>	<u>-</u>

The lease commitment is the Company's share of the office premises at Level 14, The Forrest Centre, 221 St Georges Terrace, Perth, Western Australia, and includes all outgoings (exclusive of GST). The lease is for a 7 year term expiring 30 June 2013 and contains a rent review increase each year alternating between 5% and the greater of market rate or CPI + 1%.

(b) Exploration Tenement Leases - Commitments for Expenditure

- (i) In order to maintain current rights of tenure to its Australian exploration tenements, OEQ is required to outlay lease rentals and meet minimum expenditure commitments. Based on tenements which have been granted as at the date of this report, OEQ has a 12 month commitment of \$45,154.
- (ii) OEQ has also committed to spend A\$250,000 on exploration and evaluation over a 12 month period (from date of grant on 21 March 2006) in respect of a reconnaissance licence over a 5,000 square kilometre area in the Chitral Region, North-West Frontier Province, Pakistan, prospective for gold and copper.

OEQ's financial commitments for subsequent periods are contingent upon future exploration and evaluation results and cannot be estimated. These obligations are subject to renegotiation upon expiry of the tenement lease or when application for a mining lease is made and have not been provided for in the accounts.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2006

26. CONTINGENT LIABILITIES AND ASSETS

The Company does not have any material contingent assets or liabilities at Balance Date.

Orion Equities Limited

- (a) **Hume Mining NL (Hume) (a subsidiary of OEQ) and Strike Resources Limited (SRK) Agreement** - By an agreement dated 15 September 2005 (as amended), Hume disposed of an interest in various tenements located in the Northern Territory and in Western Australia to SRK. Under the agreement, Hume is entitled to receive a royalty of 2% of gross revenues (exclusive of GST) arising from any commercial exploitation of any minerals from the tenements.
- (b) **Native Title** - OEQ's mining tenements in Australia may be subject to native title applications in the future. At this stage it is not possible to quantify the impact (if any) that native title may have on the operations of the consolidated entity.

27. EVENTS AFTER BALANCE SHEET DATE

- (a) On 25 May 2006, the Company entered into a share sale agreement with a syndicate of investors to dispose of 10,699,428 (17.25%) in Altera Capital Limited (AEA) in consideration for \$34,849 cash. On 3 August 2006, AEA shareholders approved the sale and on 8 August 2006, the sale was completed with the Company also receiving \$ 17,782 from AEA being the full repayment of a loan advanced to AEA during the financial year. AEA also terminated an irrevocable unsecured letter of credit of \$17,000 provided by the Company to AEA on 12 June 2006.
- (b) On 7 July 2006, through OEQO Pty Ltd, a wholly owned subsidiary of OEQ incorporated on 7 July 2006, acquired a 143 hectare property in Gingin, Western Australia (approximately 100 km north of Perth) comprising the Koorian Olive Grove (which has approximately 64,500, 7 year old olive tree plantings) and certain grove related equipment/infrastructure, for a consideration of \$1.2 million. OEQO also entered into an option deed (with a 9 month term) to acquire 200 hectares of nearby land, the transfer of a water licence, water bore/equipment, shed, harvester and other equipment which services the grove, from an adjacent property owner. The grove acquisition is subject to obtaining relevant Waters and Rivers Commission (WR&C) of Western Australia approvals and subject to receipt of such consent(s), is expected to settle by 3 October 2006 (subject to extension by agreement of the parties pending WR&C consent).
- (c) On 12 September 2006, the Directors of OEQ declared a final dividend of 3.0 cents per share fully franked. The record date will be 12 October 2006 with payment to be effected on 19 October 2006.
- (d) On 13 September 2006, the Directors of the Company (OEQ) declared a final dividend of 0.5 cent per share fully franked. The record date will be 25 September with payment to be effected on 29 September 2006.
- (e) On 2 August 2006, OEQ implemented an Unmarketable Parcel Sale Facility for affected shareholders holding less than A\$500 worth of shares (an Unmarketable Parcel). Under this facility, OEQ provided 6 weeks notice for affected shareholders to advise OEQ of their wish to retain their Unmarketable Parcel shareholding. OEQ shareholders who fail to return a Share Retention form by the deadline of 15 September 2006 will have their Unmarketable Parcel shareholding aggregated and sold on-market by OEQ on their behalf.

The Board of OEQ have advised that they will sell such Unmarketable Parcels by way of an on-market sale through nominated broker(s) as soon as practicable after 15 September 2006 having regard to liquidity in OEQ shares and as market conditions dictate. Affected shareholders who have had their Unmarketable Parcel shares sold will receive a pro-rata share of the total proceeds of sale without any deduction for brokerage or other costs of sale (which will be borne by OEQ).

OEQ directors have advised they may concurrently undertake an on market buy-back through a different broker(s) nominated by the OEQ Board.

DIRECTORS' DECLARATION

The Directors of the Company declare that:

1. The financial statements, comprising the Income Statement, Balance Sheet, Statement of Changes in Equity and Cash Flow Statement, and accompanying notes as set out on pages 23 to 53, are in accordance with the *Corporations Act 2001* and:

INDEPENDENT AUDIT REPORT TO THE MEMBERS OF QUESTE COMMUNICATIONS LIMITED

Scope

The Financial Report and Directors' Responsibility

The financial report comprises the balance sheet, income statement, cash flow statement, statement of changes in equity, accompanying notes to the financial statements, and the directors' declaration for both Queste Communications Limited (the company) and the consolidated entity, for the year ended 30 June 2006. The consolidated entity comprises both the company and the entities it controlled during that year.

The directors of the company are responsible for the preparation and true and fair presentation of the financial report in accordance with the Corporations Act 2001. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Audit Approach

We have conducted an independent audit in order to express an opinion to the members of the company. Our audit was conducted in accordance with Australian Auditing Standards in order to provide reasonable assurance as to whether the financial report is free of material misstatement. The nature of an audit is influenced by factors such as the use of professional judgment, selective testing, the inherent limitations of internal control, and the availability of persuasive rather than conclusive evidence. Therefore, an audit cannot guarantee that all material misstatements have been detected.

We performed procedures to assess whether in all material respects the financial report presents fairly, in accordance with the Corporations Act 2001, including compliance with Accounting Standards and other mandatory financial reporting requirements in Australia, a view which is consistent with our understanding of the company's and the consolidated entity's financial position, and of their performance as represented by the results of their operations and cash flows.

We formed our audit opinion on the basis of these procedures, which included:

- examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report, and
- assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the directors.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our audit was not designed to provide assurance on internal controls.

Independence

In conducting our audit, we followed applicable independence requirements of Australian professional ethical pronouncements and the Corporations Act 2001.

The independence declaration given to the directors in accordance with section 307C would be in the same terms if it had been given at the date of this report.

Audit Opinion

In our opinion, the financial report of Queste Communications Limited is in accordance with:

(a) the Corporations Act 2001, including:

- (i) giving a true and fair view of the company's and consolidated entity's financial position as at 30 June 2006 and of its performance for the year ended on that date; and
- (ii) complying with Accounting Standards in Australia and the Corporations Regulations 2001; and

(b) other mandatory financial reporting requirements in Australia.

TERMS OF ISSUE OF PARTLY PAID SHARES

The Company has on issue 20,000,000 ordinary shares at an issue price of 20 cents each which have been partly paid to 1 cent each and upon which there is an outstanding amount payable of 19 cents per share. Such partly paid shares were issued on 3 August 1998. The total outstanding liability of the holders of these shares is the sum of \$3,800,000.

The terms of issue of such partly paid shares (as disclosed in the Company's initial public offering prospectus dated 6 August 1998) are as follows:

1. No call will be made by the Directors on such partly paid shares until the expiry of at least two years from the date of issue of such shares;
2. No more than two (2) calls will be made upon such shares in any one financial year and no call within any one financial year will be made within six (6) months from the date of a previous call;
3. No call may be made for more than Ten Percentum (10%) of the then outstanding amount due and payable for such shares;
4. The Directors may with the prior written consent of a particular holder of such shares vary as for that particular holder the foregoing terms upon which the Directors shall be entitled to make a call;
5. Nothing shall prevent the holders of such shares pre-paying up from time to time or at any one time the whole or part of the amount unpaid on such shares even though no amount has been called to be paid up by the Directors;
6. Dividends of the Company shall be paid to the holders of such shares in the proportion which the amount paid (not credited) on the share is of the total amounts paid and payable (excluding amounts credited) on such share held by them. An amount paid in advance of a call is not to be included as an amount paid on that share for the purposes of calculating entitlement to dividends for such a share;
7. Where the Company shall be listed upon the ASX, the Company will not whilst there shall remain any outstanding liability with respect to such shares apply for Official Quotation of the same with the ASX;
8. Upon such shares being fully paid for in accordance with calls made by the Directors such that there shall be no outstanding liability with respect to the same, such shares will rank in all respects *pari passu* with the existing ordinary fully paid shares in the capital of the Company then on issue;
9. Where the Company shall be listed upon the ASX, upon such shares being fully paid for in accordance with calls made by the Directors such that there shall be no outstanding liability with respect to the same, the Company will within three (3) business days from receipt of the monies fully paying up such shares, apply for Official Quotation of all such shares, in accordance with the Corporations Law and the Listing Rules of the ASX;
10. Where the Company shall reorganise its capital, the number of such partly paid shares must be reorganised in the same proportions as other classes of shares and the reorganisation must not involve cancellation or reduction of the total amount payable and unpaid by the holder of such shares;
11. The holders of such shares shall have a fraction of a vote for each partly paid share held with the fractional vote of each share being equivalent to the proportion which the amount actually paid (not credited) for that share is of the total amounts paid and payable (excluding amounts credited) for that share. An amount paid in advance of a call is not to be included as an amount paid up on that share for the purposes of calculating the voting entitlement of such a share;
12. The holders of such shares shall not be entitled to vote at a meeting in respect of those shares on which calls are outstanding and unpaid;
13. Where there is any inconsistency between the terms of issue of these partly paid shares and the terms of the Listing Rules of the ASX (in circumstances where the Company shall be listed upon the ASX) the terms of the Listing Rules of the ASX shall prevail; and
14. Save for the specific terms of issue of these partly paid shares as referred to above (and subject to the Listing Rules of the ASX) in all other respects, the terms of issue of such partly paid shares shall be in accordance with the provisions of the Constitution of the Company.

The partly paid shares are also subject to the Company's Constitution.
